M. G. MOIES & CO.,

GENTS for Straub's Corn and Wheat Mill the "Queen of the South." This remarkable Mill has been kept secured to the inventor by caveat Patent for the United States have been granted, securing the invention for fourteen years. This Mill has sustained itself wherever it has been brought into competition with other Mills. It was run against the other make of Mills of our city, at the Ohio State Fair, in 1850, when it drew a diploma as the best Corn Mill, and was awarded a fine silver medal. Of these Mills we manufacture five sizes for corn, and three expressly for grinding wheat flour. The peculiar novelty of this Mill is, the under stone is the running stone, in all cases. There is no limit to the speed, and as speed is everything in grinding, it will out grind any upper grinder in the world. ing a continuance of the same, pledging ourselves to Secondly: By this arrangement we are enabled to get grain into the Mill with a very small eye, consequently we grind nearer the centre, and of course William J. Lowis has withdrawn from our firm, and quently we grind nearer the centre, and of course with less power than any upper runner can be made. Thirdly: Our Mill takes any kind of grain without cheking. We warrant against cheking in any and all cases. This is a great vexation causing delay and trouble in all Mills where the upper stone is the runner. Of course, we mean small Mills, where the motion must be bind the services of tapt. Generally and TRAVELING SALESMAN in connection with our Mr. Bartholow and will during the coming Season pertion must be high to do much business. Fourthly: Our Mills never take unjury by running soliciting their orders. Our stock held over from last
